Learn from the challenges they faced and how they became one of the most successful jewelry companies in Rhode Island. Bring your questions and discuss what principles you may be able to apply to your company.

"I am a 3rd generation jewelry designer, artist, and craftsman with a unique story to tell about family, loss and love.

An investment banker by background, I left a career on Wall Street to reconnect with my roots at my family's Rhode Island-based jewelry manufacturing business. In April 2013, my younger brother Danny lost a difficult battle with Leukemia – he was 33 years old. Danny's dream was to create a unique line of handcrafted, American-made jewelry that inspired others through the journey of life. Fueled by my brother's passion, a general road map he had given me, and a burning desire to make a difference, Luca + Stella was born."
