

## **Office Recycling Solutions: An Introduction**

Office Recycling Solutions (ORS) is an R2 & RIOS Certified, Rhode Island based company that is more than capable to handle all the electronic and universal waste recycling needs of businesses, residents, government agencies, non-profits and educational organizations. We will be your environmental partner on guiding you through the legislative, asset disposal/recovery, revenue share options and data destruction aspects of E-waste generation and disposal.

ORS represents a "Risk Management" solution that provides Technology Disposition Services through a unique approach for all organizations. We offer a fiscal, legal and environmentally responsible means of disposing retiring technology assets. Our Technology Risk Management services provide protection against environmental, software license infringement and confidential data security risks relating to the retirement of technology assets.

We offer:

- Compliant and consistent service delivery
- Complete data security
- Certified audited service performance
- Final disposition reporting / "Certificate of Disposal"
